Customer Support.

"We couldn't be more pleased with Jive! Their call quality is amazing, their customer support is friendly and ALWAYS THERE to help you."

-Seattle, WA

Standard Features.

"Unlike other carriers, every Jive account came standard with all of the features I needed, like call queuing, music on hold, and voicemail-to-email."

-New York, NY

Best Hosted PBX.

"We've tried a few different phone services over the years. It is my belief that Jive is the best Hosted IP PBX/VoIP provider around."

-Salt Lake City, UT

Perfect Fit.

"Jive was so easy to work with. Setup was a breeze and the price was right. Thank you for being the perfect fit for my business!"

-Phoenix, AZ

Panasonic ideas for life

Jive and Panasonic have removed the complexity from your PBX system management. Create users, change voicemail, add ring groups and more with a simple mouse click. All changes to your configuration can be made on the fly in real-time.
